

Mounting systems for industrial sensors

Universal bar clamp systems, mounting brackets,
protective devices, alignment brackets and mountings
for cylinder sensors

SICK
Sensor Intelligence.

SICK mountings and protective devices matched to SICK sensors: the perfect team for diverse applications in many different industries

Adjustable, flexible, and universal

UNIVERSAL BAR CLAMP SYSTEMS

for rectangular/cylindrical sensors and reflectors

page 8

The most flexible solution where sensors need to be fixed by means of a bar. Universal bar clamp systems offer secure fixing and variable alignment options.

MOUNTING BRACKETS

for rectangular/cylindrical sensors and light grids

page 24

The versatile alternative for all types of sensors and light grids. Floor or wall mounted, articulated arm or rotary bracket: mounting accessories from SICK solve almost any problem.

CLAMPING AND ALIGNMENT BRACKETS

for rectangular/cylindrical sensors

page 52

Flexible alignment, quick mounting, thanks to ball joints, spring bearings and clever fixing components, SICK sensors are always adjusted quickly, accurately and safely.

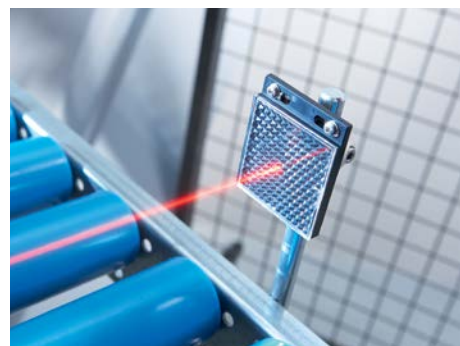

PROTECTIVE DEVICES

for rectangular sensors

page 66

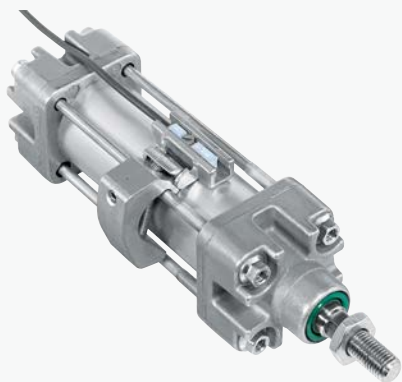

SICK protective devices ensure the highest level of protection for optical sensors **in adverse conditions**. Protective housings with metal flex tubes, dust shields with air purging and weather protection hoods protect SICK sensors from aggressive environments and mechanical damage.

MOUNTINGS FOR CYLINDER SENSORS

page 74

SICK's brackets for cylinder sensors ensure **perfect interaction** between sensor and lifting cylinder. Whether roundbody cylinder, profile cylinder or tie rod cylinder – SICK offers all the necessary mounting accessories, from the clamp all the way to the tension strap.

SPECIAL ACCESSORIES

for rectangular sensors

page 84

Masks, cooling plates and polarization filters support SICK sensors in critical applications and thus make a significant contribution to reducing machine downtime.

Getting a firm hold and keep the elements out –
mounting and protection for SICK sensors

Perfect sensor integration made easy

Innovative sensor technology is just one aspect of an intelligent automation solution. To be complete, the solution also needs suitable accessories that ensure reliable and cost-effective integration. Only by using the right integration products is it possible to optimize the effectiveness and performance offered by any application solution. Sensors and mounting systems are perfectly matched. This ensures the highest level of operational safety, while also saving the user development,

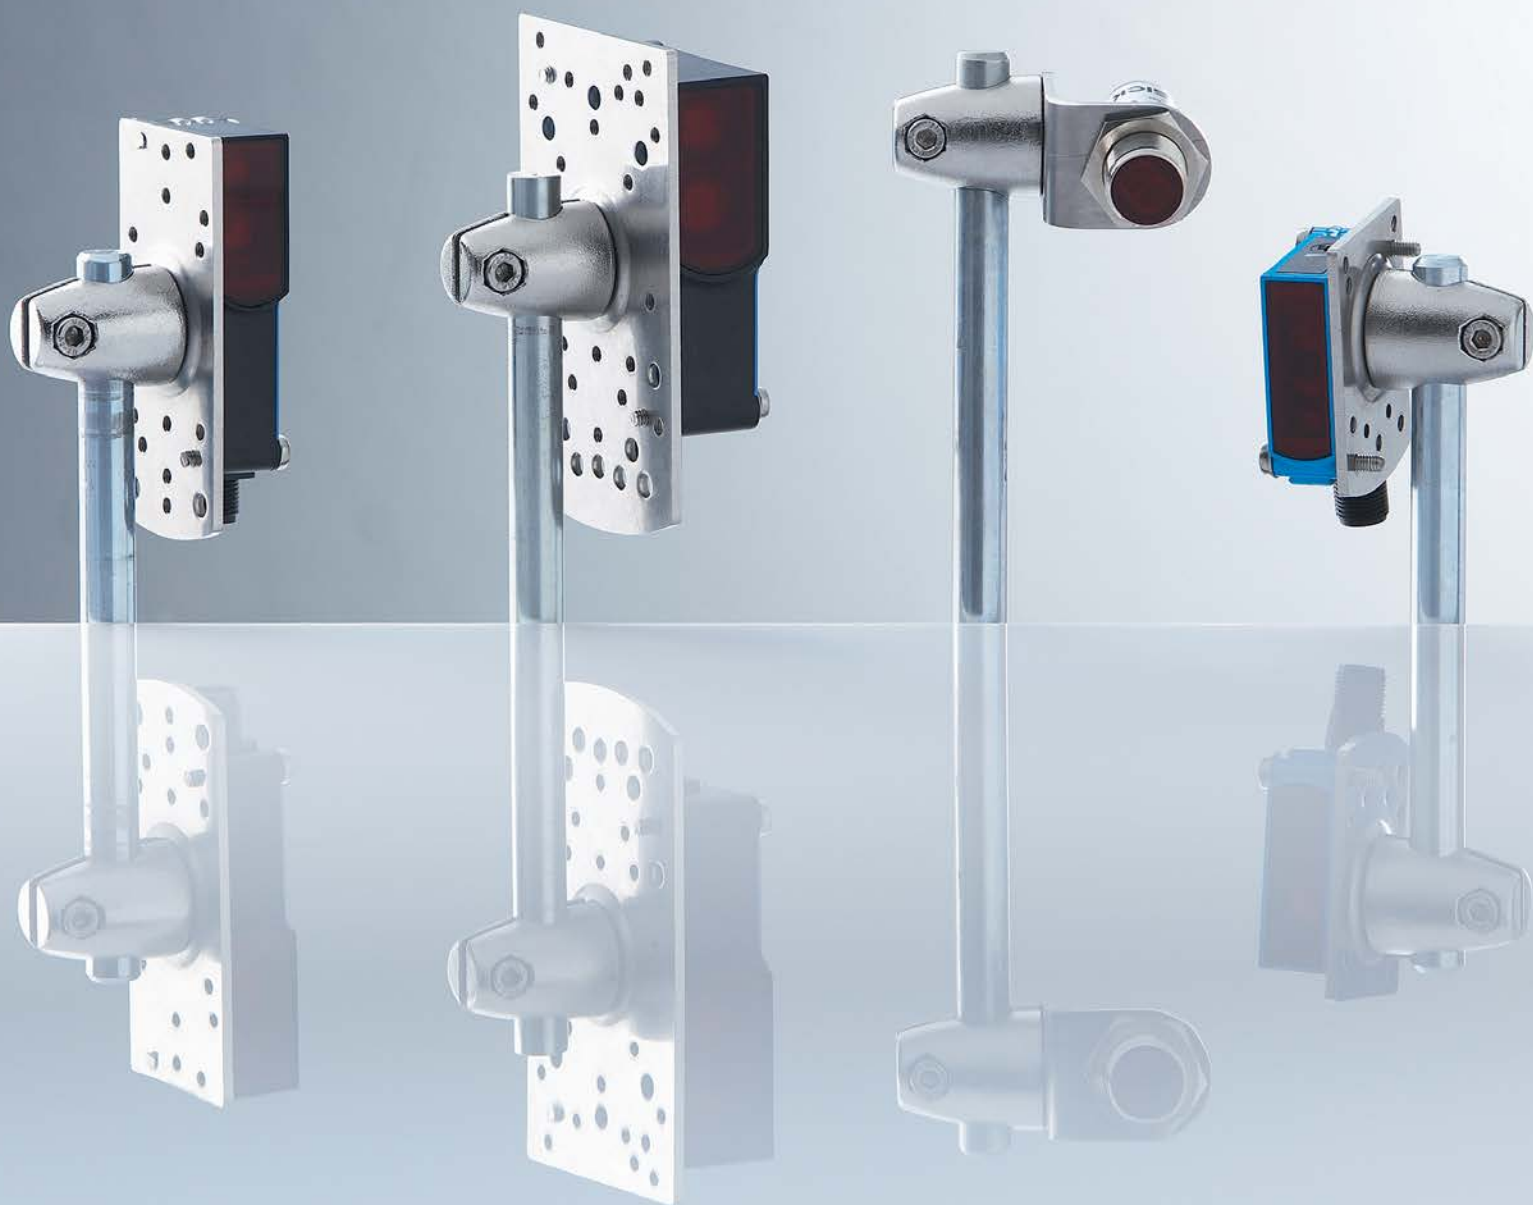

manufacture and procurement costs. Since most of our mounting components are always available on short-notice, we can offer you a convenient, single-source supply of all the parts and accessories you need for your sensor system. If you require a customized solution, then that's also no problem – customer-specific developments and adaptations can be realized very quickly.

Flexible solutions for any application

The mounting is the interface between the sensor system and the many different application requirements. Installing the sensor on the mounting system should also be safe, easy and convenient. Mounting solutions by SICK – the solution for reliable sensor integration.

SENSOR TECHNOLOGY AND MOUNTING SYSTEMS

**Universal bar clamp systems for mounting sensors
with maximum adjustability and functionality**

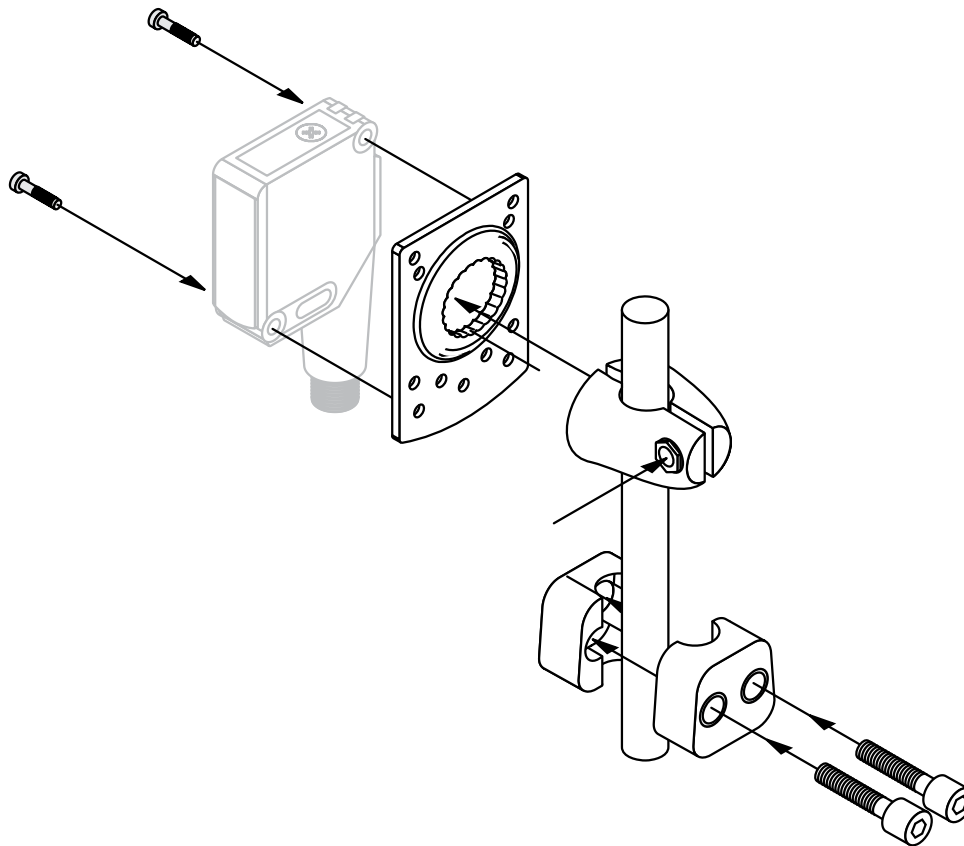

Integration of SICK sensor solutions is more flexible than ever before with the SICK universal bar clamp system! The large selection of sensor mounting plates, together with various mounting rods, offers maximum adjustability, secure fixing and universal alignment options for almost any application. At SICK, you'll find everything you need!

Clamping and alignment brackets – cleverly mounted

Accurate alignment, quick mounting:
SICK clamping and alignment brackets offer
you both. Thanks to reliable, intelligent and
solutions – from ball joints to spring plates,
from dovetail guides to bar mounting clamps.
You will find a suitable mounting solution here!

Protective devices – when it gets dirty

Sensors are used in many different places. Work gets dirty sometimes. Moisture, dust, intense sunlight or mechanical stresses can stretch the sensors' capabilities or even destroy them. Protective devices from SICK ensure perfect functionality of the SICK sensors. Even under extreme conditions they counteract harmful environmental effects to protect the sensor.

Mountings for cylinder sensors – the matching connection

Many linear motion sequences in modern industrial installations are pneumatically driven via piston rod cylinders. Accurate position determination of cylinder pistons is crucial to system control.

In this field, SICK offers plenty of sensors, of course with matching mounting systems, to fix these sensors safely to the housing of the different piston rod cylinders.

Special accessories – for all extraordinary applications

We have thought of everything: polarisation filter for reducing mutual interference of through-beam photoelectric switches, as well as slotted lens masks for focussing the emitted light paths, extend the applications for SICK sensors enormously. And, for high-temperature uses of SICK sensors, cooling plates for water cooling are the ultimate addition.

BL-150-10

Slotted mask, transmitter and receiver each
have 2 self-adhesive masks

Dimensional drawing

All dimensions in mm

Technical data

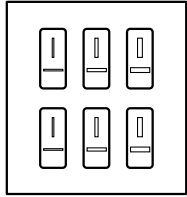

Slot width X	0.5 mm 1.0 mm 2.0 mm
--------------	----------------------------

Order information

Type	Order no.
BL-150-10	5306216

WS/WE150

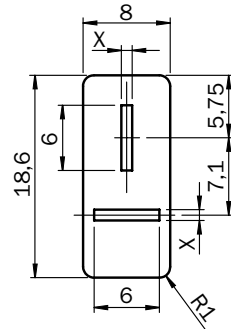

BL-100-10

Stick-on polarizing filter,
2 x X- and 2 x Y

Dimensional drawing

All dimensions in mm

Technical data

Slot width X	0.5 mm 1.0 mm 2.0 mm
--------------	----------------------------

Order information

Type	Order no.
BL-100-10	5314182

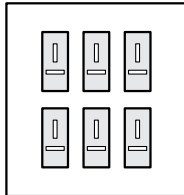

WS/WE100

3 pairs included with apertures A, B, C.
Self-adhesive backing for easy mounting.
Apply stick-on mask to WS100 and
WE100 front lens.
For small object detection or increasing
indexing accuracy.

Operating ranges with apertures applied:

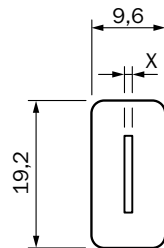

- A) Aperture 2.0 mm: Range = 4.0 m
- B) Aperture 1.0 mm: Range = 2.0 m
- C) Aperture 0.5 mm: Range = 1.0 m

BL-160-10

Slotted mask, transmitter and receiver each
have 2 self-adhesive masks

Dimensional drawing

All dimensions in mm

Technical data

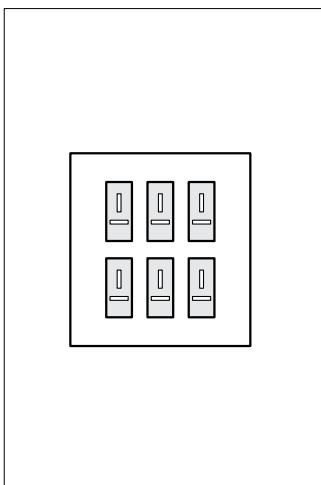

Slot width X	0.5 mm 1.0 mm 2.0 mm
--------------	----------------------------

Order information

Type	Order no.
BL-160-10	5305196

WS/WE160

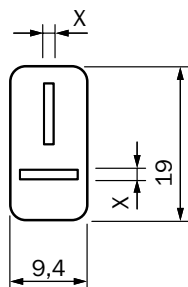

BL-160-SK

Slotted mask, transmitter and receiver
each have 2 self-adhesive masks

Dimensional drawing

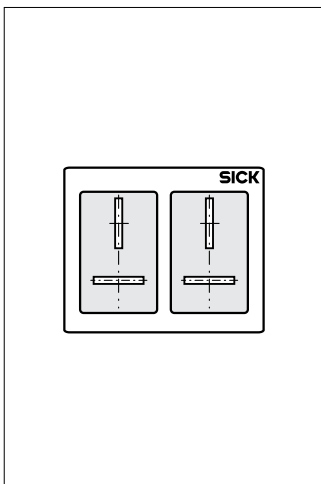

All dimensions in mm

Technical data

Slot width X	0.5 mm 1.0 mm 2.0 mm
--------------	----------------------------

Order information

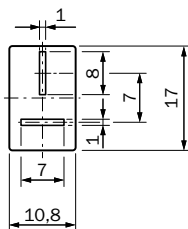

Type	Order no.
BL-160-SK	5310718

BL-170-10

2 self-adhesive slotted masks
for transmitter and receiver

Dimensional drawing

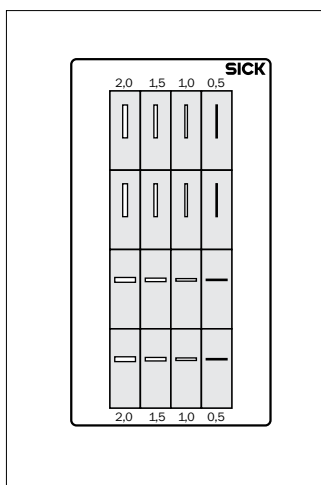

All dimensions in mm

Order information

Type	Order no.
BL-170-10	5305687

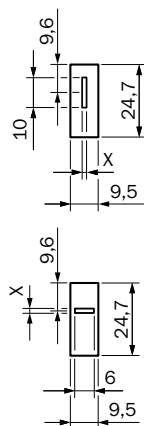

BL-9-2

Slotted mask, transmitter and receiver
each have 2 self-adhesive masks

Dimensional drawing

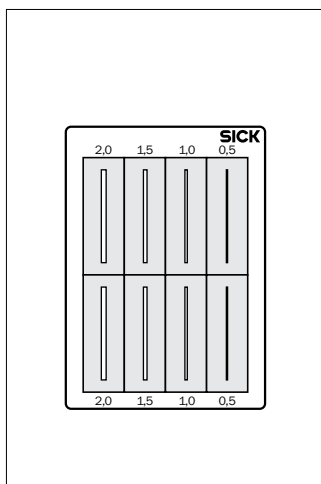

All dimensions in mm

Technical data

Slot width X	0.5 mm
	1.0 mm
	1.5 mm
	2.0 mm

Order informations

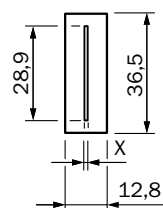

Type	Order no.
BL-9-2	4033253

BL-12-SKN

Slotted mask, transmitter and receiver
each have 2 self-adhesive masks

Dimensional drawing

All dimensions in mm

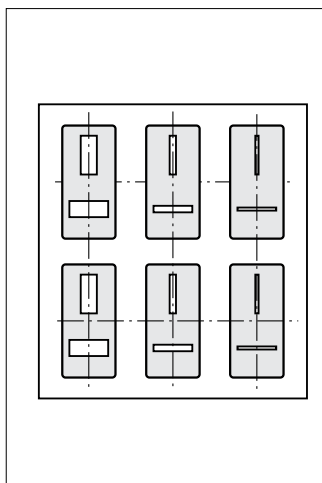

Technical data

Slot width X	0.5 mm
	1.0 mm
	1.5 mm
	2.0 mm

Order informations

Type	Order no.
BL-12-SKN	4031815

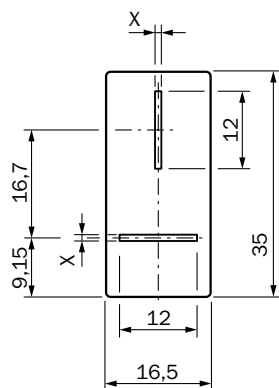

¹⁾ DC-design

BL-260-SK

Slotted mask, transmitter and receiver
each have 2 self-adhesive masks

Dimensional drawing

All dimensions in mm

Technical data

Slot width X	0.5 mm 1.0 mm 2.0 mm
--------------	----------------------------

Order information

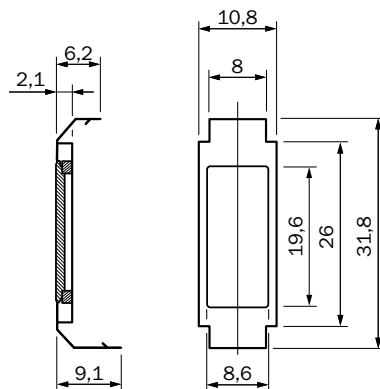

Type	Order no.
BL-260-SK	5308773

BL-100-POLF

Front polarization filter

Dimensional drawing

All dimensions in mm

Technical data

Delivery	2 x X- and 2 x Y- polarisation
----------	-----------------------------------

Order information

Type	Order no.
BL-100-POLF	5314702

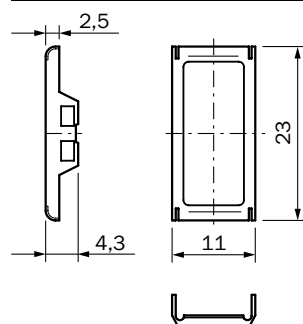

BL-140-POLF

Front polarization filter

Dimensional drawing

All dimensions in mm

Technical data

Delivery	2 x X- and 2 x Y-polarisation
----------	-------------------------------

Order informations

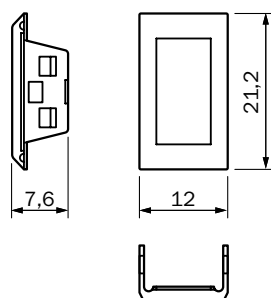

Type	Order no.
BL-140-POLF	5308457

BL-170-POLF

Front polarization filter

Dimensional drawing

All dimensions in mm

Technical data

Delivery	2 x X- and 2 x Y-polarisation
----------	-------------------------------

Order informations

Type	Order no.
BL-170-POLF	5305688

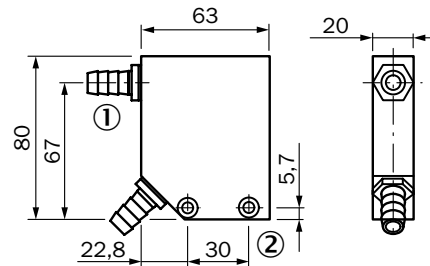

BEF-KP-W24

Cooling plate for water cooling

Dimensional drawing

All dimensions in mm

- ① Hose nozzle R1/4"
- ② Tapped hole for countersunk screw M5

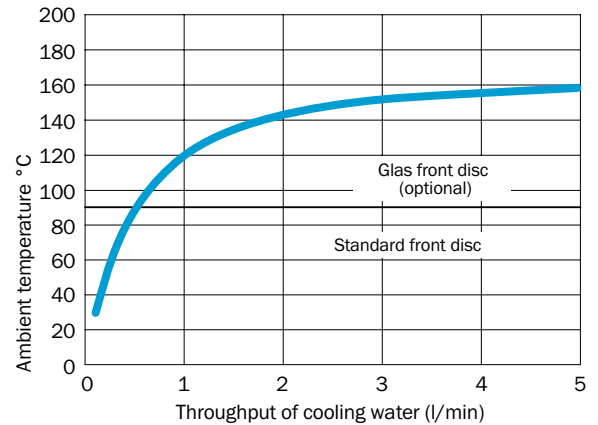

Technical data

Material	Aluminium, anodised
Delivery	incl. mounting material

Order informations

Type	Order no.
BEF-KP-W24	2015071

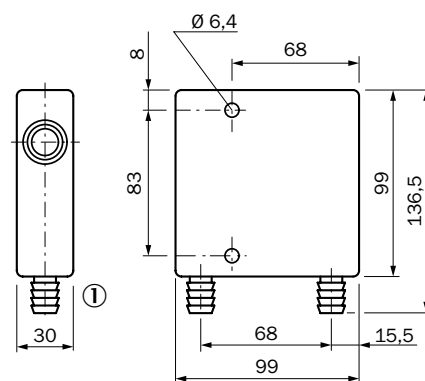

- ① Temperature for cooling water 20 °C, water pressure max. 5 bar

BEF-KP-W45

Cooling plate for water cooling

Dimensional drawing

All dimensions in mm

- ① Hose nozzle R1/2"

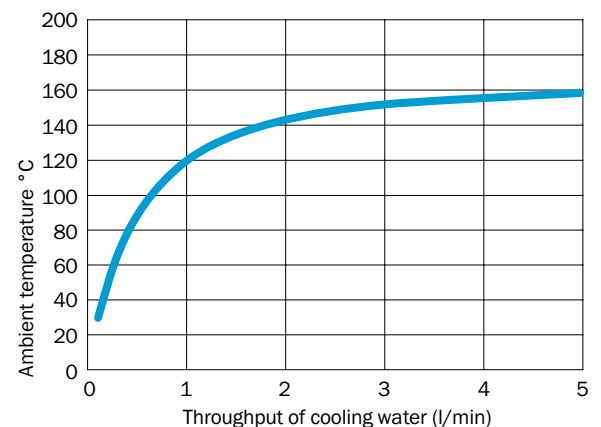

Technical data

Material	Aluminium, anodised
Delivery	incl. mounting material

Order informations

Type	Order no.
BEF-KP-W45	2011435

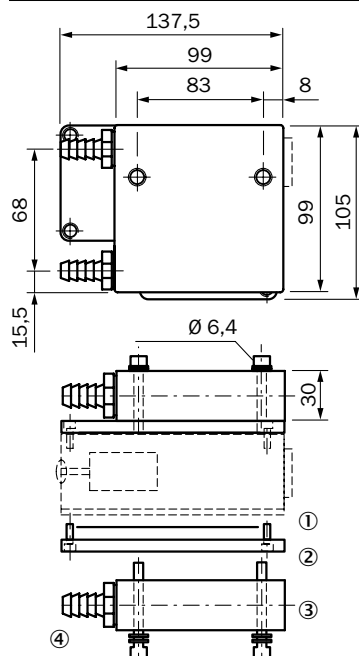

- ① Temperature for cooling water 20 °C, water pressure max. 5 bar

BEF-KPM-DME

Cooling plate assembly kit for water cooling

Dimensional drawing

All dimensions in mm

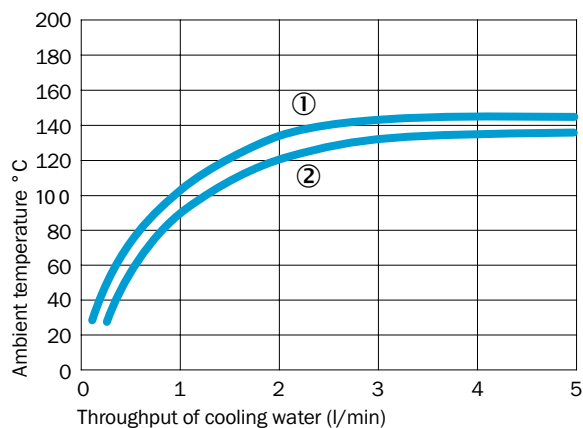

- ① Heat conduction cloth (2 x)
- ② Adapter plate (2 x)
- ③ Cooling plate (2 x)
- ④ Hose nozzle R1/2"

Technical data

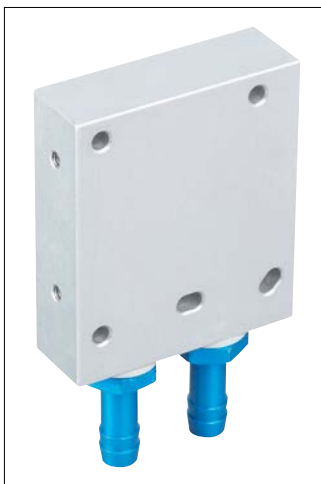

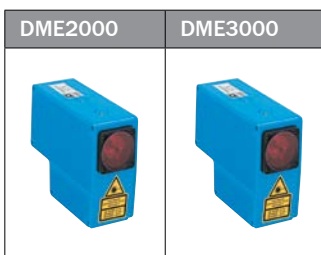

Material	Aluminium, anodised
Delivery	incl. mounting material

Order informations

Type	Order no.
BEF-KPM-DME	2014457

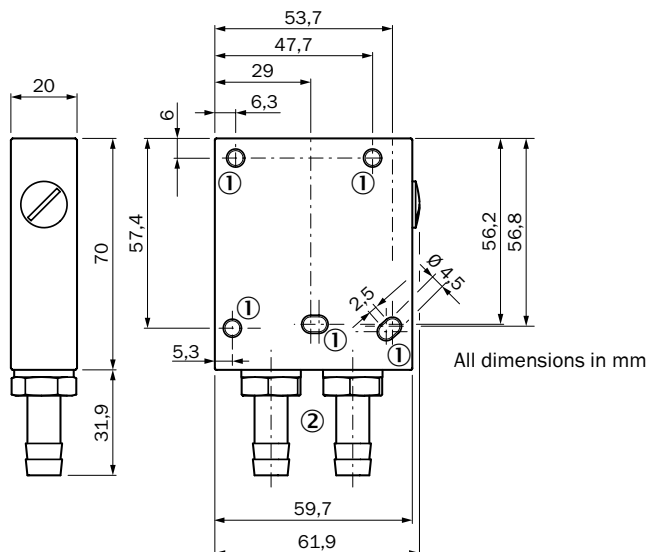

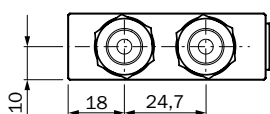

- ① Temperature for cooling water 20 °C
- ② Temperature for cooling water 30 °C

BEF-KP-DX50

Cooling plate

Dimensional drawing

All dimensions in mm

Technical data

Material	Aluminium, anodised
Delivery	incl. mounting material

SICK at a glance

Leading technologies

With a staff of more than 5,800 and nearly 50 subsidiaries and representations worldwide, SICK is one of the leading and most successful manufacturers of sensor technology. The power of innovation and solution competency have made SICK the global market leader. No matter what the project and industry may be, talking with an expert from SICK will provide you with an ideal basis for your plans – there is no need to settle for anything less than the best.

Unique product range

- Non-contact detecting, counting, classifying, positioning and measuring of any type of object or media
- Accident and operator protection with sensors, safety software and services
- Automatic identification with bar code and RFID readers
- Laser measurement technology for detecting the volume, position and contour of people and objects
- Complete system solutions for analysis and flow measurement of gases and liquids

Comprehensive services

- SICK LifeTime Services – for safety and productivity
- Application centers in Europe, Asia and North America for the development of system solutions under real-world conditions
- E-Business Partner Portal www.mysick.com – price and availability of products, requests for quotation and online orders
